DRIVER SURVEY

May 2001

Good morning/afternoon/evening, I'm from National Research Bureau, the research company. We're conducting research about driving and transport policies on behalf of the Foundation for Research, Science and Technology. Councils and others need such information to make major decisions about public transport, new roads and dealing with congestion and parking problems. Could I speak to anyone living here who drove to work or a place of education they attend before 10 a.m. in the past week?

IF NEEDED: •No, if you drove someone else to work only, that does not count.
•No, if you drove kids to school only, that does not count.

IF NO-ONE: THANK & TERMINATE. RECORD NE ON CALLSHEET

IF YES: In the past week, did you do this at least twice on weekdays, Monday to Friday?

IF YES: Great. I need to interview drivers about how they would react to different transport policies. The interview takes about 35 minutes.

IF NO: Is there anyone else in the house who did this?

IF NO/UNSURE: THANK & TERMINATE. RECORD NE

IF YES: REINTRODUCE AS NECESSARY

IF PERSON NOT AVAILABLE, ASK:

When would be a good time for me to call back to speak to him/her?

TAKE NAME AND BEST TIME TO CONTACT; WRITE THAT IN CALLSHEET

START TIME: _____

BACKGROUND INFORMATION ONLY IF NEEDED:

- This is genuine market research. I'm not selling anything.
- Information provided is confidential. We report summary results about groups; we do not identify which individuals have said what.

Scenarios

- 9 **SCENARIO FOR PRACTICE** I'm now going to show you a number of scenarios, the most important part of the interview. They'll look like this practice one. Then I'll ask how these possible transport policies would affect your travel.
CODE SCENARIO SET # FROM FRONT COVER OF SCENARIO BOOKLET: 1 2 3 4 5 6 7 8 9

MAP CARD Z (WITH SCENARIOS) This card explains some parts in the scenarios. This map shows where the Fee to enter the central city would occur. **POINT TO DASHED PURPLE LINE.** Private vehicles entering the central city by crossing this line before 10AM on weekdays would pay the Fee.

IF NEEDED RE FEE TO ENTER THE CENTRAL CITY

- We don't have time to go into detail about exactly how councils might collect fees. But councils are considering such fees and new technology may make collecting them easier than in the past.
- If you often travel very close to the dashed purple line on the map and aren't sure whether you go through or not, assume that you do cross the line (and so have to pay).

- 9a Do you live inside the line or outside the line?

9c **SAME CARD** The other side of the card shows what some changes in Public transport frequency might mean, and some examples of fares today.

SCENARIO A Imagine Scenario A was in place onday. If all these changes were in place on that day, how would you have travelled to work or your place of study? **SINGLE RESPONSE.**

IF NEEDED: Cycle lanes would be on the road, not on footpath etc off the road.

\$5 a day = \$100 a month for someone parking 20 days a month.

\$2.50 a day = \$50 a month for someone parking 20 days a month.

IF NEEDED: I need one choice only, the most likely thing you would have done.
